TECHNOLOGY EXPERIENCE

- Node.js and all the needed libraries to implement and host a backend server and API
- React, React routing, Handlebars ect. (most modern templating libraries)
- Bootstrap and CSS3 for modern web styling
- SQL and NoSQL databases and associated ORMs
- Hosting solutions including Heroku and AWS
- Passport local and Oauth strategies
- RESTFUL api implementation

LEADERSHIP EXPERIENCE

In high school I was the lead programmer for the school's BEST robotics. I was also heavily involved in the design, construction and team management. As a member of the debate team my partner and I placed in over 10 tournaments and won 1st in our division at Lawrence Freestate's tournament in 2016.
